

I have been notified by the Indiana Attorney General that you are proposing a law which will eliminate our No Call List. I beg you to please let Indiana operate with its own version. We have reduced our telemarketer calls from 5 to 10 a day to almost none. Me and my family do not shop through this method and do not appreciate having meals interrupted or our sleep disrupted. Also, my mother is on the No Call list, and she is of ill health and cannot be getting up to answer unnecessary call. Please refrain from changing Indiana's No Call Law. Thanks you for your time on this issue.
